Redmine - Defect #8243

Default enabled modules for new projects display wrong

2011-04-28 12:48 - Mark Hagers

Status:	Closed		**Start date:**	2011-04-28
Priority:	High		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Administration		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.1.2

Description
In the Administration->Settings page under the "Projects" tab the display for the "Default enabled modules for new projects" is all wrong. It displays as raw html instead of the array of check boxes that is expected. It's therefore impossible to change any of these settings. See the attached screen dump.

History

#1 - 2011-04-28 12:51 - Mark Hagers

Maybe useful info: I upgraded from 0.9.5.devel.3824 tot stable 1.1.2, following the instructions at:
http://www.redmine.org/projects/redmine/wiki/RedmineUpgrade
No other issues have occurred after the upgrade.

Rails 2.3.8 is not supported by Redmine 1.1.x, see RedmineInstall.

Try installing Rails 2.3.5.

- Status changed from New to Resolved

yep that did it.
I was acting under the assumption that AT LEAST version 2.3.5 was required, and gem installed 2.3.8 automatically.

Maybe the text on that RedmineInstall page could state more clearly that a specific version is required.
Also the update instructions seemed somewhat outdated
