Whenever CodeRay 1.1 final is released the included version in Redmine should be updated and scheduled for the then "Next major release".

**Related issues:**
- Blocks Redmine - Patch # 1471: Lua syntax highlighter for CodeRay
  - Closed 2008-06-16
- Follows Redmine - Feature # 4264: Update CodeRay to 1.0 final
  - Closed

**Associated revisions**
- Revision 12238 - 2013-10-26 10:55 - Jean-Philippe Lang
  - Upgrade CodeRay to 1.1.0 (#8253).

**History**

**#1 - 2011-04-29 23:44 - Mischa The Evil**
- Subject changed from Update CodeRay to 1.0 final to Update CodeRay to 1.1 final
- Target version set to Unplanned backlogs

For now I think the best target version for this issue is *Unplanned* (also considering the related issues #2623 and #1471).

**#2 - 2011-04-30 00:47 - Mischa The Evil**
- Due date deleted (2010-04-21)
- Category changed from Text formatting to Third-party libraries
- Start date changed from 2010-04-21 to 2011-04-30

Corrected Start- and Due-dates after copying this issue from #4264, changed issue-relations to reflect the upstream roadmap:

| + | blocks Feature #2623: C# syntax highlighting |
| + | blocks Patch #1471: Lua syntax highlighter for CodeRay |
| + | follows Feature #4264: Update CodeRay to 1.0 final |

and changed to new - more appropriate - category...

**#3 - 2011-04-30 01:20 - Mischa The Evil**
Well maybe 1.1 isn't out, and fairly doesn't seem to be released in the next months. ;-)
But anyway, currently we are using 1.0.6, and 1.0.8 is available. Maybe this could be implemented and tested for the next major release?

Corrected Link for Coderay. The old link doesn't work anymore.

It was released few months ago, +1

A scanner for C# is not included in 1.1.1.
The new scanners introduced in 1.1 are:
- Go
- Lua
- Sass
- Taskpaper

Blocks deleted (Feature #2623: C# syntax highlighting)

CodeRay upgraded in r12238.
- Target version changed from Candidate for next major release to 2.4.0
