Target version:		Affected version:	1.1.3
Resolution:	Invalid		
Description			
I have a parent item and few child items. When I edit a child item and enter a date (either starting or closing date) and try to save my changes, I get an error. The item I am saving has no child items. - Status changed from New to Resolved

I found out the problem was most probably caused by *redmine better gantt* plugin.

Issue can be closed.
