

## Redmine - Defect #8370

### side by side revision split is not at mid point of screen in Internet Explorer

2011-05-13 13:51 - Chris Magowan

<b>Status:</b>	Closed	<b>Start date:</b>	2011-05-13
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	SCM	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.1.2
<b>Resolution:</b>	Wont fix		
<b>Description</b>			
<p>When using Internet Explorer (both IE8 and IE9), the side by side view (when viewing differences in a file revision) does not have its split half way across the screen, like it does in Firefox and Chrome, instead it is somewhere away off the the right hand side. i have a large file, which has some lines which are quite wide (wider than my screen). in order to see the right hand revision i have to scroll to the bottom of the page, move the scroll bar over, so that i can see the right hand revision, then scroll back up the page again. not ideal.</p> <p>i am running Redmine 1.1.2.stable (MySQL)</p> <p>Thanks Chris</p>
