

Redmine - Defect #8390

Git: repository view doesn't show revision, age, comment, and author

2011-05-18 10:00 - Be Fio

Target version:	Affected version:
Resolution:	

Description

I don't know if this is meant to be at the moment or not, but using Redmine Trunk, when you view the repository, you only see the name and size, everything else, revision, age, comment, and author you can't even see.

Digging up some stuff, Toshi MARUYAMA made the changes that had caused this. Again, I don't know if this is how it's supposed to be, but just in case this IS a bug, I'd like it to be known. [r5769](#) is ok I think, and the latest isn't.

History

#1 - 2011-05-18 10:06 - Toshi MARUYAMA

- Status changed from New to Closed

This is intended behavior of [#8365](#).
