

Redmine - Defect #8394

Handling of html tags in search

2011-05-18 15:51 - Joe Kandaba

Status:	New	Start date:	2011-05-18
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Search engine	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.3
Resolution:			
Description			
<p>I wanted to check if a bug regarding < pre > behavior in the wiki already existed - i noticed that thousands of tickets are returned. Not because they actually deal with < pre > but because the search does not strip the tags... I think this should be changed.</p>
