Target version:	1.2.0			
Resolution:	Fixed		**Affected version:**	

Description

Private issues information shows up on Activity page for unauthorized users.

Steps to replicate:

- Create a regular issue.
- Edit the issue and set the private checkbox
- log in as a user without permission to see private issues (non-administrator)
- go to activity page and **you will see all relevant info**
- go to issues page and issue is not visible and cannot be found using search
