

Redmine - Defect #8445

gzip for xml/json/atom results

2011-05-26 14:19 - Pavel Samokha

Status:	Closed	Start date:	2011-05-26
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
Xml/Json/Atom response always plain when I request it with Accept-Encoding=gzip, while for ordinary html pages everything fine - encoded in gzip.			
Tested both locally and on redmine.org/issues.xml for example, via my code as well as using chrome/firefox.			

History

#1 - 2011-05-26 14:32 - Etienne Massip

- Category set to REST API

#2 - 2011-06-01 19:01 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

Redmine does not gzip any response, including html content. You have to configure your web server to gzip atom or xml responses in addition to html.
