

Redmine - Defect #8454

Updating Version with Date fails with Error 500

2011-05-27 19:33 - Paul paul

Status:	Closed	Start date:	2011-05-27
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	No feedback		
Description			
RM 1.1.3, Postgres. Clicking Project --> Settings --> Versions --> Edit (on a Version with no assigned date) and setting the date leads to the attached error. Changing Version's properties other than Date seems to work fine. The Version has issues assigned to it (including subtasks). <pre>Processing VersionsController#update (for 192.168.2.26 at 2011-05-27 13:19:22) [PUT] Parameters: {"commit"=>"Save", "project_id"=>"myproject", "action"=>"update", "_method"=>"put", "authenticity_token"=>"12345", "id"=>"19", "version"=>{"name"=>"My Milestone 2", "wiki_page_title" =>"", "effective_date"=>"2011-05-31", "description"=>"New Milestone", "status"=>"open", "sharing" =>"descendants"}, "controller"=>"versions"}</pre> <pre>ArgumentError (comparison of Array with Array failed): app/controllers/versions_controller.rb:109:in `update'   passenger (3.0.7) lib/phusion_passenger/rack/request_handler.rb:96:in `process_request' passenger (3.0.7) lib/phusion_passenger/abstract_request_handler.rb:513:in `accept_and_process_n ext_request'   passenger (3.0.7) lib/phusion_passenger/abstract_request_handler.rb:274:in `main_loop' passenger (3.0.7) lib/phusion_passenger/classic_rails/application_spawner.rb:321:in `start_reque st_handler'   passenger (3.0.7) lib/phusion_passenger/classic_rails/application_spawner.rb:275:in `send' passenger (3.0.7) lib/phusion_passenger/classic_rails/application_spawner.rb:275:in `handle_spaw n_application'   passenger (3.0.7) lib/phusion_passenger/utils.rb:479:in `safe_fork' passenger (3.0.7) lib/phusion_passenger/classic_rails/application_spawner.rb:270:in `handle_spaw n_application'   passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:357:in `__send__' passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:357:in `server_main_loop'   passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:206:in `start_synchronously' passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:180:in `start'   passenger (3.0.7) lib/phusion_passenger/classic_rails/application_spawner.rb:149:in `start' passenger (3.0.7) lib/phusion_passenger/spawn_manager.rb:219:in `spawn_rails_application'   passenger (3.0.7) lib/phusion_passenger/abstract_server_collection.rb:132:in `lookup_or_add' passenger (3.0.7) lib/phusion_passenger/spawn_manager.rb:214:in `spawn_rails_application'   passenger (3.0.7) lib/phusion_passenger/abstract_server_collection.rb:82:in `synchronize' passenger (3.0.7) lib/phusion_passenger/abstract_server_collection.rb:79:in `synchronize'   passenger (3.0.7) lib/phusion_passenger/spawn_manager.rb:213:in `spawn_rails_application' passenger (3.0.7) lib/phusion_passenger/spawn_manager.rb:132:in `spawn_application'   passenger (3.0.7) lib/phusion_passenger/spawn_manager.rb:275:in `handle_spawn_application' passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:357:in `__send__'   passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:357:in `server_main_loop' passenger (3.0.7) lib/phusion_passenger/abstract_server.rb:206:in `start_synchronously' passenger (3.0.7) helper-scripts/passenger-spawn-server:99</pre> Rendering /usr/local/www/redmine/public/500.html (500 Internal Server Error)			

History

Can't reproduce on bare Redmine ; never seen so much plugins, though, maybe you should try to activate them one by one til the issue is triggered to determine the one responsible ?
