Description			
I have translated an earlier version of Redmine but merged it with the latest locale file. It should be okay though I wasn't able to test it with the latest version.

```

#3 - 2011-06-02 11:26 - Toshi MARUYAMA

- Status changed from Reopened to Closed

All tests on CI server pass.

#4 - 2011-06-02 20:55 - Jean-Philippe Lang

Toshi, you can use rake locales after updating a translation file. It will:

- check that all keys in en.yml are present in other locales (and add them if necessary)
- check that interpolation arguments are the same as in en.yml

#5 - 2011-06-03 01:07 - Toshi MARUYAMA

Thanks for your information.
