History

#1 - 2011-06-04 14:17 - Etienne Massip

Did you set up [#7688](#) patch as mentionned in [requirements](#) ?

#2 - 2011-06-04 14:30 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid

Guess not, according to [#8522](#).

#3 - 2011-06-04 19:58 - Alex Last

can I still run the old Redmine 1.1 on the same machine if I install the patch?
I need to have several Redmine instances (1.1.1, 1.1.2, 1.2.0, ...) to test Redmine Java API and my Task Adapter application.

#4 - 2011-06-04 20:11 - Alex Last

installed 2 patches now:
https://gist.github.com/826692
http://www.redmine.org/attachments/4699/patch_for_mongrel.rb

restarted Redmine - the same problem. the instruction should be more clear so that non-ruby-guru can install Redmine 1.2.0...

Sorry for that, I have no clue :/

About the 2 patches, you have to drop the first one in config/initializers, that should be enough.

#6 - 2011-06-06 20:15 - Alex Last

well,I installed both and still no luck... there might be some additional steps...

#7 - 2011-06-21 11:27 - Etienne Massip

Did you finally manage to run it fine ?

#8 - 2011-06-21 19:34 - Alex Last

no, I tried couple things and then gave up.
