

Redmine - Defect #8524

Error upgrading from 1.1.1 to 1.2.0

2011-06-03 23:02 - Cassiano Monteiro

Status:	Closed	Start date:	2011-06-03
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

After all the upgrading steps, when I try to load the Redmine home page, html the source code is generated, but show as plain text on the web browser.

On my mongrel.log, i got these errors:

```
** Starting Rails with production environment...
```

```
** Rails loaded.
```

```
** Loading any Rails specific GemPlugins
```

```
** Signals ready. INT => stop (no re** Rails loaded.
```

```

My gem list:

*** LOCAL GEMS ***

actionmailer (2.3.11, 2.3.5)
actionpack (2.3.11, 2.3.5)
activerecord (2.3.11, 2.3.5)
activeresource (2.3.11, 2.3.5)
activesupport (2.3.11, 2.3.5)
cgi_multipart_eof_fix (2.5.0)
gem_plugin (0.2.3)
i18n (0.4.2)
mongrel (1.1.5 x86-mingw32)
mongrel_service (0.3.4 i386-mswin32)
mysql (2.8.1 x86-mingw32)
rack (1.1.0)
rails (2.3.11)
rake (0.8.7)
rmagick (2.12.0 mswin32)
win32-service (0.5.2 mswin32)

Running on Apache/Windows XP x64.

History

#1 - 2011-06-04 14:30 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Invalid

Mongrel < 1.2 + Rails 2.3.11 require monkey patch, see [\[\[RedmineInstall#Compatibility-notes\]\]](#).

#2 - 2011-06-06 13:16 - Cassiano Monteiro

- Status changed from Closed to Reopened

I tried the patch from [mongrel.rb](#) file, I still had the same problem. Is the [patch_for_mongrel.rb](#) file different?

Mongrel 1.2.0 is already out?

#3 - 2011-06-06 13:32 - Tom Rochette

I had this same error a while ago, fixed it by using some of the stuff on <https://gist.github.com/471663>. Might be helpful to you.

#4 - 2011-06-06 13:49 - Cassiano Monteiro

It's basically the same as the one from <https://gist.github.com/826692>, just with more versions on the top.

But it's completely different from mongrel.rb that I have installed from version 1.1.5 here. How should I apply the patch? Add all the content from the patch file to the one I have? Or just overwrite it?

#5 - 2011-06-16 18:55 - Alfredo Bonilla

Hi, you have to place the mongrel.rb file in your redmine/config/initializers. We had a problem with the gems. We didn't install mongrel and mongrel_cluster gems. If you look at the patch code, the first IF sentence is searching for the version of the mongrel gem... so, once installed, everything works perfectly.
