

Redmine - Defect #8528

Deleting a user does not keep the current filter active

2011-06-04 16:30 - Tom Rochette

Status:	Closed	Start date:	2011-06-04
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description I have a bunch of user that I put into the locked users waiting for a delete user feature to exist. Now that #7296 exists, I've tried it, but realised that if I filter to the locked list, then delete a user, the filter is reverted to the active status list automatically. I believe it makes more sense to keep the current filter active than to return to the active status list. This way, I can easily delete one user at a time (future feature: bulk delete users :))			

History

#1 - 2012-10-18 23:33 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Tested ok now in 2.1.
