

Redmine - Feature #854

Editing one's own forum posts

2008-03-14 16:56 - YA Chris

Status:	Closed	Start date:	2008-03-14

Target version:	0.8		
Resolution:	Fixed		
Description			
Hello -- it'd be nice to be able to have the ability to NOT edit all forum posts (such as is the case now in 0.6.4) but to just have the ability to edit forum posts that I have made.			

Associated revisions

Revision 2019 - 2008-11-11 16:07 - Jean-Philippe Lang

Adds permissions to let users edit and/or delete their messages (#854, patch by Markus Knittig with slight changes).

History

#1 - 2008-03-16 15:01 - Jean-Philippe Lang

- Target version set to 0.8

#2 - 2008-09-15 21:58 - Jan Losinski

+1
I need this too

#3 - 2008-09-15 23:50 - Jan Losinski

- File *own_message_edit.patch* added

I've a dirty hack if anyone need this feature faster than the official implementation is done.

Apply the patch and you can edit your own posts, even if you are not a manager.

#4 - 2008-11-08 19:01 - Markus Knittig

- File *edit_own_messages.diff* added

Here is my try...

#5 - 2008-11-11 16:08 - Jean-Philippe Lang

- Category set to *Forums*
- Status changed from *New* to *Closed*
- Resolution set to *Fixed*

I've committed Markus' patch in [r2019](#) (with slight changes) since it's more configurable.
Thanks.

#6 - 2008-11-14 22:34 - Markus Knittig

Nice, but there's a little typo in the language files. It should be `permission_delete_own_messages` not `permission_delete_won_messages`.
