

## Redmine - Feature #8545

### "get projects" REST API response should handle "include=trackers" parameter

2011-06-06 20:34 - Alex Last

<b>Status:</b>	Closed	<b>Start date:</b>	2011-06-06
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Baptiste Barth	<b>% Done:</b>	0%
<b>Category:</b>	REST API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>	Duplicate		
<b>Description</b> <a href="http://myserver:3000/projects.xml?limit=25&amp;offset=0&amp;include=trackers">http://myserver:3000/projects.xml?limit=25&amp;offset=0&amp;include=trackers</a> - this returns list of projects without trackers  is this intended? maybe the REST API can add some comment to the response like "your xxx parameter was ignored because..."			
<b>Related issues:</b> Is duplicate of Redmine - Patch #17602: Include enabled modules in projects API <b>Closed</b>			

#### History

##### #1 - 2011-06-07 09:15 - Etienne Massip

- Tracker changed from Defect to Feature

It's not handled.

##### #2 - 2011-06-07 09:16 - Etienne Massip

- Subject changed from "get projects" REST API response ignores "include=trackers" parameter to "get projects" REST API response should handle "include=trackers" parameter

- Target version set to Candidate for next major release

##### #3 - 2012-01-14 21:21 - Alex Last

can we include this into Redmine 1.3.1?

##### #4 - 2012-01-24 22:31 - Preethi Sriram

- File IncludeTracker.diff added

Patch is attached to include trackers in get projects api

Test-

<http://myserver:3000/projects.xml?limit=25&offset=0&include=trackers>

will include tracker information for each project.

##### #5 - 2012-04-20 07:42 - Alex Last

what/when is the "next major release"?

##### #6 - 2014-09-08 02:27 - Alex Last

let's merge this into "master"?

##### #7 - 2014-09-08 06:40 - Jean-Baptiste Barth

- Assignee set to Jean-Baptiste Barth

Do you have a use case where it's useful to get trackers for *all* projects ? If there are valid use cases I can commit the patch but it needs some tests first.

Fwiw the information can already be retrieved for a single project with the exact same parameter.

##### #8 - 2014-09-08 08:50 - Jan from Planio [www.plan.io](http://www.plan.io)

- Status changed from New to Closed

- Resolution set to Duplicate

IMHO this can be closed since [#17602](#) is now merged and implements this (as well as for enabled modules).

**#9 - 2014-09-08 08:50 - Jan from Planio [www.plan.io](http://www.plan.io)**

- Is duplicate of Patch #17602: Include enabled modules in projects API added

**#10 - 2014-09-08 09:11 - Etienne Massip**

- Target version deleted (Candidate for next major release)

**#11 - 2014-09-08 14:08 - Jean-Baptiste Barth**

Oh yes you're right Jan, it's now even on project#index ! As long as it's optionnal it seems OK to me, I updated the docs accordingly.

**#12 - 2014-09-08 22:08 - Alex Last**

what is the minimum Redmine version that has this change?

**#13 - 2014-09-09 06:07 - Jean-Baptiste Barth**

The field is already accessible for a specific project for a long time (GET /projects/:id) but in the projects list (GET /projects) it's only on the svn trunk for now. It will be included in Redmine 2.6.0 which isn't out yet.
