Redmine - Defect #8555

Group results by and sort for more than one field don't work

2011-06-07 15:39 - pasquale [:dedalus]

Status:	New		**Start date:**	2011-06-07
Priority:	Normal		**Due date:**

Category:	Custom fields		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	1.1.2

Description

I have create my custom queries, grouping results by priority and sort by

Priority   Asc
aCustomField (integer) Desc

This don't work because I set the customFielt to numeric values 1, 2, 3 and redmine don't sort the buhs with same priority using this customField.

Expected result:

priority Immediate
bug1 (customfield =1)
bug2 (customfield =2)

History

More informations:

I have set default value of customfield to 100 (and min=1 and max =100).
All bugs that I haven't touched has this default value to 100. When I raise my custom query (with customfield visible) I see that the query don't display the default value and then maybe redmine sort first the "null" customfield (but isn't null, is 100) and after the bug with customfield <100
