

Redmine - Defect #8564

Git: `git mv file file2` shows up as delete + add instead of rename

2011-06-08 14:18 - Be Fio

Status:	Closed	Start date:	2011-06-08
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Wont fix		
Description When you use `git mv file file2`, and click the revision in Redmine, it shows as a delete + add instead of a rename as it should. Git shows it properly as a rename if I check it. Using Redmine trunk r6007

History

#1 - 2011-06-08 14:30 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Wont fix

Git does not treat rename.

Please see [#4547](#) and [r3468](#).

#2 - 2011-06-08 14:31 - Toshi MARUYAMA

- Category set to SCM
