Description

After the last update from 1.1 to 1.2 we got following bug. This can also be reproduced on demo.redmine.org.

Steps to reproduce

1. Go to any project's Overview page. Then go to Report.
2. By default you see "all time" selected (http://screencast.com/t/UZ4tIC6i1).
3. Click on calender icon and select range from a day one week before (in this sample I selected 2011-06-02) to previous day (here I selected 2011-06-08).
4. Click "Apply".

Expected result

Date range stays the same (from 2011-06-02 to 2011-06-08) and you can follow with adding "details".

Actual result

Date range is reset to default one (from 2011-06-09 to 2011-06-09) http://screencast.com/t/9AxjulkIQuo So, you have to select necessary range again :( (from 2011-06-02 to 2011-06-08)...
