Would be great to have backlinks in Redmine wiki!

#2 - 2013-11-30 14:58 - Josef Čech

Hi. I've put the functionality into the plugin for those interested in the backlinks feature:

https://github.com/Yrwein/redmine_backlinks

In fact it's rewritten code above (we've used a modified version of the patch in previous versions of Redmine, but it was removed after upgrade) with possibility to show backlinks on every wiki page without macro call.

#3 - 2016-05-10 10:53 - Paolo Crisafulli

+1

I would also love to have the possibility to search for backlinks in a subtree of a wiki.
