More information:

Below is the log info when i create the new issue:

```
-----
Processing IssuesController#index (for 118.113.193.91 at 2011-06-09 19:17:27) [POST]

```

Bleow is log info when i create the news. and this is ok.

```
Processing NewsController#create (for 118.113.193.91 at 2011-06-09 19:38:53) [POST]
Parameters: {"commit"=>"", "project_id"=>"df", "action"=>"create", "authenticity_token"=>"j4uuOFNKI1Xl8HsGoKOhD4UCD26IygBWhvE76Tglv30=", "controller"=>"news", "news"=>{"title"=>"test", "description"=>"tewadfsdffa", "summary"=>""}}

```

i compared this.

i found that the action is "index" but not "create" when create new issue, so the create new issue is failed. however the action is "create", so the create the news is successfully.

How can modify source code? which file include this error?

Thanks!

Any plugin ?

#4 - 2011-06-10 17:11 - ww yhy

this is new installation. I have not install any plugin except default in 1.2.0.
