Description

I opend a List of ticket on the web view, subject of subtasks is indented.
But when I opend exported PDF, subtasks is not indented.

This patch is improvement to exported PDF indent.

May I ask why "Candidate for next major release"? Why not next minor release?

The patch seems to be easy and contained to pdf.rb, works and it really helps (without it the resulting PDF is quite useless because all issues are mixed together)†

(No flame intended.)
