Redmine - Defect #8653

Version name alphanumeric sorting

2011-06-20 17:15 - Lluís Vilanova

Status:	Closed	**Start date:**	2011-06-20
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Roadmap	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	

Description

I think it is common to name a version in the roadmap with the version number itself. When shown in the roadmap, these seem to be sorted lexicographically if the date is not set:

- 0.10
- 0.9.4
- 0.9.5
- 1.0

While there is no generic solution, it would be an improvement just to sort the version name alphanumerically using some of the common version number separators (e.g., a dot separating numbers).
