- Resolution set to Fixed

There are many sites using Redmine in the Contao network :

<http://www.contao-forge.org> may be the new <http://www.contao-forge.de>
<https://code.softmethod.de> host a project to switch to ChiliProject
<http://dev.contao.org> is the official Contao dev site

I guess (and whois records agreed) that <http://www.contao-forge.org> replaced <http://www.contao-forge.de>.
