

Redmine - Defect #870

Table markup parsing bug

2008-03-15 16:04 - John Goerzen

Status: Closed	Start date: 2008-03-15
Priority: Normal	Due date:

Target version:	Affected version:
Resolution:	
Description	
Consider the following wiki markup:	
<pre> _ .Library _ .Download Locations FilePath "project homepage":http://www-users.cs.york.ac.uk/~ndm/projects/libraries.php#filepath hslogger [[hslogger: hslogger project homepage]] MissingH [[missingh: MissingH project homepage]] </pre>	
This ought to display three rows, each with a link in the right column.	
The 2nd and 3rd rows don't display anything in the right column. Experimentation reveals that making a wiki link without an embedded pipe character seems to solve it. It appears that the table system is interpreting the pipe character in the wiki link as a cell divider.	

Associated revisions

Revision 1280 - 2008-03-21 18:39 - Jean-Philippe Lang

Wiki links:

- fixes wiki links with pipe in table (closes #893, #870, #894)
- prevent wiki link matching on multiple lines

Please test the patch from [#894](#) for this

#2 - 2008-03-20 18:46 - John Goerzen

That does appear to fix it. Thank you.
