

Redmine - Feature #8721

Show news recursive

2011-06-30 14:41 - Ivan Cenov

Status:	New	Start date:	2011-06-30
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	News	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description Now: When showing news, the news related to the current show and the news of the child projects are not included. Suggestion: 1. Let when showing news, the news of child projects to be included too. 2. Let this be configurable some way, par example when the list appears a check box to allow child news to be included too (or excluded) -- the opposite of the default behavior. 3. When selected to not showing child news, let there be a brief message that tell that there is > 0 child news.

Hi

In the Bug Tracker, there is at lease on other issue about this feature: [#5933](#) which contains even a patch

Why isn't this behaviour not implemented? Especially because the the **Activity feed** contains all the activies of any sub-projects.

Why are the different behaviours between **News** and **Activity**?

#2 - 2015-04-03 09:34 - Yves G

And also the **Issue Tracker** them self show always all the issues of any sub-projects
