

## Redmine - Feature #8745

### Document all REST API "include" possibilities

**Description**

There was at least one undocumented API feature for the Users REST API:

```
GET /users/3.json?include=memberships
```

Returns the details about user ID 3, and additional detail about the user's project roles and memberships. **There are probably other such undocumented features like this.**

Are there other such undocumented features of the Users REST API or other REST APIs?

I am marking this high because it is an easy fix (documentation).

#### History

##### #1 - 2011-07-05 01:22 - Bevan Rudge

#7420 and #4968 are related to this issue in that they were seeking this feature.

##### #2 - 2011-07-05 01:31 - Bevan Rudge

There is a corresponding issue in the Drupal Redmine API module at [drupal.org/node/1209126](http://drupal.org/node/1209126)

##### #3 - 2011-08-29 10:01 - Etienne Massip

- Subject changed from *Undocumented API features* to *Document all REST API "include" possibilities*
- Category changed from *REST API* to *Documentation*
- Priority changed from *High* to *Normal*
- Affected version (unused) changed from *1.1.2* to *1.2.1*
- Affected version changed from *1.1.2* to *1.2.1*

##### #4 - 2011-08-29 10:01 - Etienne Massip

- Tracker changed from *Defect* to *Feature*

##### #5 - 2013-05-06 22:50 - Jean-Baptiste Barth

- Status changed from *New* to *Closed*
- Assignee set to *Jean-Baptiste Barth*
- Resolution set to *Fixed*

Of course the documentation may have tiny holes like this. We'd like at least the REST API to be as accurate as possible so that people can build 3rd party tools on it. This is fixed for this one (already was, but I added a tiny explanation). Don't hesitate to open other requests if you see other things

missing (and o
