

Redmine - Defect #8746

RCOV configuration for redmine plugin and not showing rcov coverage of redmine\_plugin patch files

2011-07-05 11:31 - surajit dey

Status:	New	Start date:	2011-07-05
Priority:	Normal	Due date:	2011-07-06
Assignee:		% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
<b>Description</b> We're developing a plugin in which we use patch files for issue.rb, issues_controller.rb, user.rb, etc.. We've configured rcov in redmine plugin's lib/task/rcov.rake file. When we run rake rcov:all it doesn't show the patch or hook file's new method's coverage.  How to solve this issue plz let me know ASAP.  I've attached my rake file, see attached file.			

History

#1 - 2011-07-13 19:07 - Etienne Massip

- Category set to Code cleanup/refactoring

#2 - 2011-08-31 08:26 - Jean-Baptiste Barth

- Priority changed from Urgent to Normal

It's not "urgent" at all, since nothing visible to a user is broken. If you are developing a plugin, I assume you have some ruby skills, have you tried to find out why it doesn't work ? Does your rake file fixes this, or is it just an illustration for the problem ?
