Related to Redmine - Feature #13317: Pluggable PDF export engine	**New**

History

#1 - 2011-12-20 21:48 - Jonathan M

I can confirm that this is still an issue in 1.3.0

#2 - 2011-12-20 23:26 - Jun NAITOH

Redmine is useing RFPDF (TCPDF) library.
But RFPDF is not supporting RTL (Right-To-LeftRTF) now.
I think that RFPDF library needs to add RTL function, and if I am possible, I would like to challenge it.

Got it. It was marked as duplicate by mistake, and now you deleted it. Ignore my comment...

#6 - 2012-08-06 18:34 - Genadi Saltikov

Any update on this issue guys?
I tried to search for RFPDF in relation to RTL or right to left on google, but did not get anything relevant :(

Are there any alternative libraries, could you consider switching? Redmine is incomplete without support for RTL languages - unfortunately I am not the only user :(

#7 - 2012-08-06 18:43 - William Roush

The RFPDF author migrated his apps to Prawn, probably a good option.

https://github.com/prawnpdf/prawn

> Any update on this issue guys?

I am still challengeing.

I think it possible to support RTL in RFPDF library.

#9 - 2014-06-22 14:22 - Ebrahim Mohammadi

Any news on support of RTL in RFPDF and Redmine PDF export?

#10 - 2014-06-22 14:34 - Toshi MARUYAMA

- Related to Feature #13317: Pluggable PDF export engine added
