Redmine - Defect #8767

Git: diff is a 404

2011-07-08 03:00 - Dave Abrahams

Status:	Closed		**Start date:**	2011-07-08
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.2.0

Description

Here's an excerpt from my production.log. I can visit the revision just fine, but visiting its diff gives a 404 error.

```
Processing RepositoriesController#revision (for 207.172.223.249 at 2011-07-07 17:54:19) [GET]
  Parameters: {"rev"=>"ab345492332bea411da869592a7d2a6fe13a3361", "action"=>"revision", "id"=>"emb
t", "controller"=>"repositories"}
Rendering template within layouts/base
Rendering repositories/revision

scm: git: add unit adapter test of annotate invalid revision (#8767).

History

#1 - 2011-07-08 03:35 - Toshi MARUYAMA

- Subject changed from /diff is a 404 to Git: diff is a 404

- Status changed from New to Closed

- Priority changed from High to Low

"revisions/hash_id" reads DB stored infos.
If you remove revisions from repository (eg. git push :delete_branch, git branch -D detele_branch, git gc), diff returns 404.

But, DB stored revisions remains.

#2 - 2011-07-08 05:20 - Dave Abrahams

- Status changed from Closed to Reopened

I have not deleted any revisions from the repository. In fact, that revision is at the head of the repository's "work" branch.

#3 - 2011-07-08 05:24 - Toshi MARUYAMA

- Status changed from Reopened to Closed

- Resolution set to Cant reproduce

I added unit adapter tests, and I can't reproduce.

#4 - 2011-07-08 05:46 - Dave Abrahams

The problem was on our end: apache needed to restart after the path to git changed on the server. Sorry about the noise!

#5 - 2011-07-08 06:06 - Toshi MARUYAMA

- Resolution changed from Cant reproduce to Invalid
