- Category changed from Issues to UI

- Status changed from New to Closed

- Resolution set to Invalid

You need to use 2-finger scrolling on iOS up to 4 to scroll inner parts of HTML pages, in this case the issue list. If you're looking for a scroll bar: there should be one, but Safari mobile doesn't show any, even if the CSS says so.

Anyway, I consider this a usage issue, closing as such.

Oops, sorry.
I tried and it worked, i´m still a noob in Ipad.
Thank´s for help.

Nuno.

That's one of the least discoverable and least documented feature of the iPad, sadly, but now you'll now for other websites too :-)
