Redmine - Feature #8795

Notification on new issue creation (to get ticket number) but not changes that I make myself

2011-07-12 17:49 - Nicolas Kopp

Resolution:				

Description

Title pretty much says it all. If hope this is not a dublicate of http://www.redmine.org/issues/8241

Scenario:

- Someone opens up a new issue via mail
- Redmine parses E-Mail and sends notification mail to the creator. This Mail contents a ticket number. The ticket-number is neccesary to properly update the ticket via mail, otherwise (without the number) a new issue would be created.
- If I upate the issue via mail I don't want to be notified about the changes I made.

Basically the "I don't want to be notified of changes that I make myself" option does that, except that no mail is sent when I CREATE an issue (that counts as a change) and I get no ticket number.

History

#1 - 2011-07-12 18:40 - Nicolas Kopp

found the piece of code, I think:

app/models/mailer.rb, line 360ff:

```
if @author.pref[:no_self_notified]
      recipients.delete(@author.mail) if recipients
      cc.delete(@author.mail) if cc
    end
```

Now i need to know how to change that like

```
if @author.pref[:no_self_notified]
    if issue_in_question! = just_created
        recipients.delete(@author.mail) if recipients
        cc.delete(@author.mail) if cc
    end
  end
```

Any ideas?
