

Redmine - Feature #886

Copy A Project

2008-03-18 15:50 - Muneeb Shaukat

Status:	Closed	Start date:	2008-03-18
Priority:	Normal	Due date:	
Assignee:	Eric Davis	% Done:	100%
Category:	Projects	Estimated time:	0.00 hour
Target version:	0.9.0		
Resolution:	Fixed		
Description			
There should be a facility to copy a project with another name. E.g if i have a project name pilot and have defined the workflow users and settings for it . It would be helpful to copy it with another name and then customize the copied project.

Associated revisions

Revision 2704 - 2009-05-03 23:25 - Eric Davis

Added the ability to copy a project in the Project Administration panel.

- Added Copy project button.
- Added Project#copy_from to duplicate a project to be modified and saved by the user
- Added a ProjectsController#copy based off the add method
 - Used Project#copy_from to create a duplicate project in memory
- Implemented Project#copy to copy data for a project from another and save it.
 - Members
 - Project level queries
 - Project custom fields
- Added a plugin hook for Project#copy.

#1125 #1556 #886 #309

History

Just tried this out, Issues were copied over successfully. However, documents were not. Shouldn't the copied project also have the original project's documents as well?

#4 - 2009-07-10 05:12 - Eric Davis

- Status changed from Resolved to Closed

Please open a new Feature request for coping Documents. You can reference this issue ([#886](#)) and another issue if you'd like ([#3367](#)).

Side Note: This issue should have been Closed instead of Resolved.

Looks like it was created as [#5664](#). I'd like to see this feature as well for the same reasons noted in the other job.
