Target version:	Affected version:
Resolution: Invalid	

Description

Hello,

I've configured the foreman server and installed one client. The client is well sendint facts to server (I can see them in /var/lib/puppet/yaml/facts) but when I import them to foreman I still see the "No Inventory Data" for the concerned host. But I can see the local master facts / inventory.

I've no error in production log during the import.

I attach the facts files.

Can you help on this ?

Thanks

History

#1 - 2011-07-21 10:26 - NoName NoSurname

wrong site ;) hehe

#2 - 2011-07-21 10:26 - NoName NoSurname

- Status changed from New to Resolved

- % Done changed from 0 to 100

#3 - 2011-07-21 11:27 - Etienne Massip

- Status changed from Resolved to Closed

- Resolution set to Invalid
