<b>Resolution:</b>			
<b>Description</b>			
Hi,			
I think you should change formatting on <a href="#">Changelog</a> page - putting list of changes into "pre" blocks makes ticket numbers not clickable.			
It's way better to have changelog with clickable ticket #numbers - i've done the same in my company and we realized that it's such a small change and you can go directly from changelog page to specific issue without any extra copy-paste or whatever you do to go to specific ticket to check if it's about an issue that concerns you.			
changelogs for specific versions are lists anyway (* == ul) so it wont break page layout.			
example:			
Before change:			
<b>1.2.1 (2011-07-11)</b>			
<ul style="list-style-type: none"><li>* Defect #5089: i18N error on truncated revision diff view</li><li>* Defect #7501: Search options get lost after clicking on a specific result type</li><li>* Defect #8229: "project.xml" response does not include the parent ID</li><li>* Defect #8449: Wiki annotated page does not display author of version 1</li><li>* Defect #8467: Missing german translation - Warn me when leaving a page with unsaved text</li><li>* Defect #8468: No warning when leaving page with unsaved text that has not lost focus</li><li>* Defect #8472: Private checkbox ignored on issue creation with "Set own issues public or private" permission</li><li>* Defect #8510: JRuby: Can't open administrator panel if scm command is not available</li><li>* Defect #8512: Syntax highlighter on Welcome page</li><li>* Defect #8554: Translation missing error on custom field validation</li><li>* Defect #8565: JRuby: Japanese PDF export error</li><li>* Defect #8566: Exported PDF UTF-8 Vietnamese not correct</li><li>* Defect #8569: JRuby: PDF export error with TypeError</li><li>* Defect #8576: Missing german translation - different things</li><li>* Defect #8616: Circular relations</li><li>* Defect #8646: Russian translation "label_follows" and "label_follows" are wrong</li><li>* Defect #8712: False 'Description updated' journal details messages</li><li>* Defect #8729: Not-public queries are not private</li><li>* Defect #8737: Broken line of long issue description on issue PDF.</li><li>* Defect #8738: Missing revision number/id of associated revisions on issue PDF</li><li>* Defect #8739: Workflow copy does not copy advanced workflow settings</li><li>* Defect #8759: Setting issue attributes from mail should be case-insensitive</li><li>* Defect #8777: Mercurial: Not able to Resetting Redmine project repository</li></ul>			
After change:			
<b>1.2.1 (2011-07-11)</b>			
<ul style="list-style-type: none"><li>• Defect <a href="#">#5089</a>: i18N error on truncated revision diff view</li><li>• Defect <a href="#">#7501</a>: Search options get lost after clicking on a specific result type</li><li>• Defect <a href="#">#8229</a>: "project.xml" response does not include the parent ID</li><li>• Defect <a href="#">#8449</a>: Wiki annotated page does not display author of version 1</li><li>• Defect <a href="#">#8467</a>: Missing german translation - Warn me when leaving a page with unsaved text</li><li>• Defect <a href="#">#8468</a>: No warning when leaving page with unsaved text that has not lost focus</li></ul>			

- Defect [#8472](#): Private checkbox ignored on issue creation with "Set own issues public or private" permission
- Defect [#8510](#): JRuby: Can't open administrator panel if scm command is not available
- Defect [#8512](#): Syntax highlighter on Welcome page
- Defect [#8554](#): Translation missing error on custom field validation
- Defect [#8565](#): JRuby: Japanese PDF export error
- Defect [#8566](#): Exported PDF UTF-8 Vietnamese not correct
- Defect [#8569](#): JRuby: PDF export error with TypeError
- Defect [#8576](#): Missing german translation - different things
- Defect [#8616](#): Circular relations
- Defect [#8646](#): Russian translation "label\_follows" and "label\_follows" are wrong
- Defect [#8712](#): False 'Description updated' journal details messages
- Defect [#8729](#): Not-public queries are not private
- Defect [#8737](#): Broken line of long issue description on issue PDF.
- Defect [#8738](#): Missing revision number/id of associated revisions on issue PDF
- Defect [#8739](#): Workflow copy does not copy advanced workflow settings
- Defect [#8759](#): Setting issue attributes from mail should be case-insensitive
- Defect [#8777](#): Mercurial: Not able to Resetting Redmine project repository

---

## History

### #1 - 2011-07-24 19:38 - lukasz rysiak

actually previous changelogs were done in this way - [Changelog\\_1\\_0](#)

### #2 - 2011-07-25 13:10 - Etienne Massip

- Category changed from Documentation to Website (redmine.org)

### #3 - 2011-08-04 22:25 - Jean-Baptiste Barth

- Status changed from New to Closed

- Assignee set to Jean-Baptiste Barth

Done, it's OK for me. Jean-Philippe: I let you switch back to the previous version if needed, maybe I missed something.
