

## Redmine - Defect #89

### Svn changes don't show up in the Activity section until you view the Repository section

<b>Description</b>			
<p>Just like the title says: If you make some changes to your repository (in my case SVN), the changes wont show up in the Activity page until you view the Repository page.</p> <p>My guess is that this is a problem with the caching not being refreshed for the Activity section. Or it is a problem of the Repository page viewing, being a trigger to update any changes in the Activity page.</p>
