<b>Description</b> When setting up a Custom Field with a regular expression, there appears to be no syntax checking: it is therefore possible to enter an invalid expression, which is only detected when attempting to complete the field for the first time in a issue. It would be better to check the syntax during generation of the Custom Field.			
<b>Related issues:</b> Is duplicate of Redmine - Defect #8865: Custom field regular expression is no... <div>Closed2011-07-20</div>
