Redmine - Defect #8972

Is this a bug?

2011-08-02 17:32 - Ivan Cenov

Status:	Closed		**Start date:**	2011-08-02
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	

Description

Redmine, trunk, [r6398](#)
Executing
ruby script\about RAILS_ENV=production
produces this result:

```

```

Is this a bug or I do something illegal?

History

#1 - 2011-08-02 18:57 - Thomas Löber

Please double-check your config/database.yml configuration.

The redmine_development database seems to be missing.

#2 - 2011-08-02 19:05 - Ivan Cenov

Yes, there is no redmine_development database in my configuration but wonder why this script is searching for it. I also tried
ruby script\about RAILS_ENV=production
and
ruby script\about -e production
but it continues searching for redmine_development

#3 - 2011-08-04 23:25 - Jean-Baptiste Barth

- Priority changed from Normal to Low

Please copy/paste your config/database.yml file, I'm sure there's something strange in it.

#4 - 2011-08-05 07:43 - Ivan Cenov

Here it is:

```
# MySQL (default setup).

production:
  adapter: mysql
  database: redmine_trunk
  host: localhost
  username: redmine
  password: redminepwd
  encoding: utf8

development:
  adapter: mysql
  database: redmine_development
  host: localhost
  username: root
  password:
  encoding: utf8

# Warning: The database defined as "test" will be erased and
# re-generated from your development database when you run "rake".
# Do not set this db to the same as development or production.
test:
  adapter: mysql
  database: redmine_test
  host: localhost
  username: root
  password:
  encoding: utf8

test_pgsql:
  adapter: postgresql
  database: redmine_test
  host: localhost
  username: postgres
  password: "postgres"

test_sqlite3:
  adapter: sqlite3
  database: db/test.sqlite3
```

#5 - 2011-08-07 23:19 - Thomas Löber

On Windows, could you please try:

```
set RAILS_ENV=production
ruby script/about
```

Please also have a look at issue [#4090](#).

#6 - 2011-08-08 09:50 - Ivan Cenov

Thanks, it works now.
However, I wonder why 'ruby script\server -e production' works without setting RAILS_ENV environment variable.

#7 - 2011-08-15 13:55 - Etienne Massip
