Description

1. Go in issues
2. Add/remove columns
3. Take a coffee
4. Go back to issues

Columns came back to standard configuration.
Is there any way to store them per user without using reports ? At least in preferences.

History

#1 - 2012-05-31 16:07 - Jeremy Blanchard

This is also very similar to my issue where the column order does not get saved with the query.

#2 - 2019-06-08 04:39 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Cant reproduce

Cannot reproduce the issue with Redmine 4.0.3.devel.18234. Please reopen this issue if you still experience the problem.
