Resolution:	Invalid		
Description Hi EMS SUPPORT, Good Day. I'm from production support team for MCS & VG apps would like to request some help needed towards escalated issue on our monitoring mailbox. User claimed that they found mismatch value between EMS and VG on the Resource Input in Inventory. The help need are listed below (1) Please grant me the access for me to URL http://ems.intel.com/feed/inventory? so that I able to find the Feed File which able to use on validating the data. It seem a day delay if i wait for the response from the team to get the Feed File for my troubleshooitng purpose so im requesting for direct access. (2) Besides, im looking for PG8 Inventory Feed File. Appreciate if you able to provide the lastest file. Please advise and we looking forward your guidance ASAP. Thanks. Regards, Dinesh			

History

#1 - 2011-08-23 09:50 - Etienne Massip

- Category deleted (Feeds)
- Status changed from New to Closed
- Assignee deleted (Dinishwaren Jothi)
- Resolution set to Invalid

Not the right tracker.
