

Redmine - Defect #9116

undefined method `empty?' for :login:Symbol

2011-08-24 12:24 - Liansheng Li

Status:	Closed	Start date:	2011-08-24
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Cant reproduce		
Description			
Windows 7

History

#1 - 2011-08-24 13:47 - Etienne Massip

Redmine version ?

#2 - 2011-08-25 04:15 - Liansheng Li

It's appear in redmine 1.1 and redmine 1.2.

redmine 1.0 doesn't has this question.

#3 - 2011-08-25 08:57 - Etienne Massip

I doubt it, but maybe it is related to the default configuration.yml file when copied from .example which contains email configuration with authentication: :login

#4 - 2011-08-31 08:53 - Jean-Baptiste Barth

The line that throws this error is not the same on your 2 machines (line 171 of lib/tasks/email.rake in the first, 170 in the second). Your rake versions are not the same neither (0.9.2 / 0.8.3). I'm not able to reproduce with either rake v0.8.7 or v0.9.2 (0.8.3 is far too old), but i get a deprecation warning on this line with rake 0.9.2. It works though on my machine...

Liansheng: could you try to replace line 170 in lib/tasks/email.rake as you're the only one to reproduce this bug. It should look like this now :

```
task :test, :login, :needs => :environment do |task, arg|
```

Replace it with the new syntax :

```
task [:test, :login] => :environment do |task, arg|
```

... and tell us if it solves your problem. Thanks.

#5 - 2013-04-30 10:40 - Jean-Baptiste Barth

- Status changed from New to Closed

- Resolution set to Cant reproduce

No answer, I suppose the problem is fixed.
