

Redmine - Feature #9149

logging of user sessions for downloading from files

2011-08-30 17:45 - jonny tim

Status:	New	Start date:	2011-08-30
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
I only have a log of what was uploaded to the attachments table. I really need to see who is downloading those files?			
I'll take any raw data, thanks.

I'm on Redmine 1.05, Ubuntu 11.04, postgresql DB

I'm using two types of authentication LDAP users and Internal users

Check your HTTP server access logs.

#3 - 2011-08-30 21:30 - jonny tim

I'm not getting any user information just ip addresses and a "-" for u% ...I'm using Phusion Passenger
