<b>Resolution:</b>	Duplicate		
<b>Description</b> <p>The recently added feature in <a href="#">r1260</a> is a very welcome and much needed addition, but it also needs the ability to change the window of time, otherwise there is no way to see this view of data for greater than 7 days ago.</p> <p>I would suggest the following:</p> <ul style="list-style-type: none"><li>• Display data for the "this week" (starting on Monday), rather than the last 7 days.</li><li>• Provide some sort of input control for changing which week or calendar period is displayed.</li></ul>

I agree, It would be nice to customize the "my page" widget for what you need to see on a regular basis.

[..] there is no way to see this view of data for greater than 7 days ago.

The issue [#13157](#) is providing the feature, that allows you to see all your spent time. (Patch is available.)
