

Redmine - Defect #9188

Relations are not included in the response on the REST api call GetIssues

2011-09-05 23:44 - John Karman

Status:	Closed	Start date:	2011-09-05
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	1.2.1
Resolution:	Invalid		
Description Is seems that the GetIssues call does not send the relations in the reply. When trying to send this: http://www.redmine.org/issues.xml?limit=2&project_id=redmine&offset=0&include=relations&key= I do not get any relations back in the reply. See the attached XML file for the response. Many thanks to "Alexey Skorokhodov" for assistance.			

History

#1 - 2011-09-06 09:30 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Invalid

- include=relations is meant to work when querying a specific issue, e.g.
<http://demo.redmine.org/projects/frezcrr/issues/3241.xml?limit=2&include=relations>
- Don't take www.redmine.org as an example since it is not guaranteed to be up to the latest stable version, use demo.redmine.org instead
- Finally, you should report this issue on [Redmine Java API tracker](#), this tracker is for Redmine core bugs and feature requests only

#2 - 2011-09-06 10:33 - John Karman

Oh, I must have misunderstood the API then...

I have already before filing this report, actually filed a report to the Java-API and the owner there concluded that this was an error in Redmine, see:
<http://code.google.com/p/redmine-java-api/issues/detail?id=79>

If this is not supported, could we perhaps change this issue to be a feture request instead then instead of closing it?
or should I make a new issue about that?

Thanks for the really fast reply!

Yes, for clarity, I would prefer that you fill a new Feature Request in, thanks.
