

Redmine - Defect #9277

copy issue from one project to another with different tracker fail

2011-09-19 12:56 - Igor Zubkov

Status:	Closed	Start date:	2011-09-19
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description If we have one project "Project A" with one tracker "Bugs" (with custom fields) and another project "Project B" with one tracker "Support" (with custom fields), redmine fail to copy issue from "Project A" to "Project B". Will be very nice if redmine copy issue. If we have different list of custom fields, just skip custom fields which are missing in target. I can patch this and attach code with tests for this.
