Description			
This fixes some minor problems in en.yml. Some may require explanation, so:			
<ul style="list-style-type: none">• "Data" is seldom used as a plural• "Reset" is the past tense of "reset"• "Login" is only one word when it's a noun, otherwise it's 2 words• "Logged" implies recorded - "logged in" means authenticated with a session

Hi,
you forgot to attach the file, Rocco :)
