Description

Assignees in projects I think should have opportunity to import Custom Queries

1. Like Dead Line
2. Quick Tasks
3. Easy Tasks

... so on

for 1 account it is easy to make such Queries,
what is not for 5 or 10 Assignees

It's possible to make Custom Queries public (That's what the "Public" Checkbox is for) so everyone can use them.
Would that fit your use case?
