

Redmine - Defect #9331

Status list is sometimes missing values

2011-09-27 13:40 - Frank Helk

Status: Closed	Start date: 2011-09-27
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version: 1.2.0
Resolution: Invalid	
Description	
For some users the status listbox seems to omit some of the expected values.	
Seems to appear with old, existing tickets as well when creating a new ticket. Problem dropped in when upgrading from 1.0.3 to 1.2.0.	
The values are not missing in any case, I haven't figured out what exactly triggers that behaviour.	

History

#1 - 2011-09-27 15:02 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Invalid

Guess that these statuses are not included in the workflows defined for your users role.

Please reopen if really needed.

#2 - 2011-09-27 15:28 - Mischa The Evil

Two things that come in mind:

1. Could it be related to [workflow issues](#)?
For an example, see the [FAQ](#)
2. Could it be related to the behaviour of the "Blocked by" [issue-relations](#)?
If an issue is blocked by another issue that has an open status, then statuses which are [configured to behave as closed issue statuses](#) are rejected from the status-list.
For more details about the implementation of this feature see issues [#1740](#), [#2132](#) and revision [r2800](#).

#3 - 2011-09-27 15:35 - Frank Helk

- File *Snap_Workflow.png* added
- Status changed from Closed to Reopened

Sorry for not being precise ... the stati are indeed allowed for that role - see attached snapshots. To be precise, that role can change change the status from every value to any other one.

I would show the list with the missing values, too, but I could not reproduce the problem right now.

But definitely seen: At least the entry for "Zugewiesen" (=assigned) was missing.

#4 - 2011-10-10 14:37 - Frank Helk

First: Thanks for the tip ... the missing status values were blocked by a "related to" link. Breaking up that link solved the issue.

But that popped up another: I thought that the "related to" relationship only implies a "reference" that doesn't involve any restrictions like "blocked by" or "follows" would impose. Is that behaviour intended for the "related to" relationship ?

#5 - 2011-10-11 23:17 - Mischa The Evil

That seems utterly strange...:/

You're right. The "related to" relationship should not trigger **any** restrictions AFAIK.

I've just tried to reproduce this behaviour on <source:/trunk@7623> and haven't been able to do so successfully. Thus, so far, I'd say that the "related to" relationship also **does not** trigger **any** restrictions in general and logically that the issue you were experiencing should be classified as an exception.

The above leads me automatically to the following question: are you (still) able to reproduce this error? And, if yes, could you provide more information about you Redmine stack and configuration (see <Submissions>)?

#6 - 2011-10-13 11:02 - Frank Helk

Mischa The Evil wrote:

OK - good to know that we're on the same line ...

I've just tried to reproduce this behaviour on <source:/trunk@7623> and haven't been able to do so successfully. Thus, so far, I'd say that the "related to" relationship also **does not** trigger **any** restrictions in general and logically that the issue you were experiencing should be classified as an exception.

The above leads me automatically to the following question: are you (still) able to reproduce this error?

I've just tried it and I were not able to reproduce it ... so we might file that as exception. And I will keep an eye on it.

Unfortunately the creation and deletion of ticket relations seems not to be part of the ticket history, so I can't track that part precisely in the offending ticket. The only thing I can say ist that this ticket is kind of old, supposed to be created under Redmine 0.8.7 (My update path that far is 0.8.7 -> 1.0.1 -> 1.0.3 -> 1.2.0).

Since you've asked:

- Redmine 1.2.0
- ruby 1.8.6 (2008-08-11 patchlevel 287) [i386-mswin32]
- MySQL 5.1.37
- LOCAL GEMS
 - actionmailer (2.3.11, 2.3.5, 2.2.2)

actionpack (2.3.11, 2.3.5, 2.2.2)
activerecord (2.3.11, 2.3.5, 2.2.2)
activeresource (2.3.11, 2.3.5, 2.2.2)
activesupport (2.3.11, 2.3.5, 2.2.2)
fxri (0.3.6)
fxruby (1.6.16 x86-mswin32-60)
hpricot (0.6.164 mswin32)
i18n (0.4.2)
log4r (1.0.5)
mysql (2.8.1 x86-mswin32)
ptools (1.1.6)
rack (1.1.1, 1.0.1)
rails (2.3.11)
rake (0.8.7, 0.8.1)
ruby-opengl (0.60.0 i386-mswin32)
test-unit (2.0.1)
win32-api (1.2.1 x86-mswin32-60, 1.2.0 x86-mswin32-60)
win32-clipboard (0.4.4)
win32-dir (0.3.2)
win32-eventlog (0.5.0)
win32-file (0.5.5)
win32-file-stat (1.3.1)
win32-process (0.5.9)
win32-sapi (0.1.4)
win32-sound (0.4.1)

windows-api (0.2.4)
windows-pr (0.9.3)

#7 - 2011-12-07 22:29 - Mischa The Evil

- Status changed from Reopened to Closed
- Resolution changed from Invalid to Cant reproduce

Please re-open if the issue re-occurs.

#8 - 2012-08-16 12:49 - José Campos

- Status changed from Closed to Reopened

This issue occurred to me too. The Closed status is missing in only one of our issues, and the user role can do pretty any change in status for this tracker. The issue does have two related issues (I haven't tried to delete the relation, though).

mysql Ver 14.14 Distrib 5.1.49, for debian-linux-gnu (x86_64) using readline 6.1
ruby 1.8.7 (2010-08-16 patchlevel 302) [x86_64-linux]
rails (3.2.6)
Redmine 2.0.3.devel.10153

#9 - 2012-08-16 12:55 - José Campos

Sorry, my (BIG) mistake. I had a blocking issue. You can close this issue again. Sorry for the mistake.

#10 - 2013-09-24 21:06 - Mischa The Evil

- Status changed from Reopened to Closed
- Resolution changed from Cant reproduce to Invalid
