Description I wrote some help to contribute back to the Redmine project, now at http://docs.redmigt.com/projects/docs/wiki If it can't be attached to the default help (which I'm guessing it can't because of security issues with the CSS), can it at least be linked from http://www.redmine.org/guide ? Cheers, jh

Thanks for bringing this up again jon. It's already discussed at issue [#7284](#), thus I close this issue as *Duplicate*.

Note: I'll see what I can do for [#7284](#); I'll assign the issue to myself...
