

Redmine - Feature #934

Jump to ticket if ticket # is entered in search

<b>Description</b>			
It'd be nice to be able to input a ticket # into the search box and being redirected directly to the ticket, e.g. if one enters #123 into the search, Redmine would redirect to h**p://my.dom.ain/issues/show/123

Andreas, just type the issue number without the '#' :)

#2 - 2008-03-26 15:34 - Nikolay Solakov

In fact, it works with the '#' too.
