Redmine - Defect #935

when bulk editing, setting "Assigned to" to "nobody" causes an sql error

2008-03-26 21:04 - Marc Horowitz

Status:	Closed		**Start date:**	2008-03-26

Target version:	0.7			
Resolution:	Fixed		**Affected version:**	

Description

at least under postgres:

```
ActiveRecord::StatementInvalid (PGError: ERROR:  invalid input syntax for integer: "none"
: SELECT * FROM users WHERE (users."id" = 'none')  LIMIT 1):
```

I've included a patch which fixes this problem, and as a bonus, allows setting the version to "none" as well, using a similar pattern to assigned_to.

Associated revisions

Revision 1294 - 2008-03-26 23:22 - Jean-Philippe Lang

Fixed: when bulk editing, setting "Assigned to" to "nobody" causes an sql error with Postgresql (#935).

History

#1 - 2008-03-26 23:24 - Jean-Philippe Lang

- Category set to Issues

- Status changed from New to Closed

- Target version set to 0.7

- Resolution set to Fixed

Thanks, patch applied in [r1294](#) with the ability to set the category to 'none' as well.
